# *URO*®

## *INFO FACTS*

The *URO*® Shackle System has a freely rotating spring pin design and a specially formulated urethane that is self-lubricating and abrasion resistant. The *URO*® Shackle provides superior dampening and suspension control over the original equipment bushings. It extends component life and improves overall vehicle handling as well as greatly reduces wear on the leaf springs and hangers.

The *URO*® Shackle System design is backed by:

**3 YEAR PARTS & LABOR WARRANTY**

**MAINTENANCE FREE**

**LOWER MAINTENANCE COSTS**

**INCREASED SERVICE LIFE 3 TO 5 TIMES**

**EASY INSTALLATION**

**IMPROVES RIDE QUALITY**

**QUIETER RIDE**

**INCREASED CONTROL OVER  
SUSPENSION MOVEMENT TO MAINTAIN ALIGNMENT;  
IMPROVES HANDLING, &  
EXTENDS TIRE LIFE.**
