**Shackle & Suspension
Systems**

**VOLVO & MACK
MODELS**

INFO FACTS

The **URO**® Shackle System has a freely rotating spring pin design and a specially formulated urethane that is self-lubricating and abrasion resistant. The **URO**® Shackle provides superior dampening and suspension control over the original equipment bushings. It extends component life and improves overall vehicle handling as well as greatly reduces wear on the leaf springs and hangers.

The **URO**® Shackle System design is backed by:

3 YEAR PARTS & LABOR WARRANTY

MAINTENANCE FREE

LOWER MAINTENANCE COSTS

INCREASED SERVICE LIFE 3 TO 5 TIMES

EASY INSTALLATION

IMPROVES RIDE QUALITY

QUIETER RIDE

**INCREASED CONTROL OVER
SUSPENSION MOVEMENT TO MAINTAIN ALIGNMENT;
IMPROVES HANDLING, &
EXTENDS TIRE LIFE.**
