# **URO<sup>®</sup>**

## *INFO FACTS*

The **URO<sup>®</sup>** Systems has free rotation technologies and a specially formulated proprietary elastomer that is self-lubricating and abrasion resistant. The **URO<sup>®</sup>** System provides superior dampening and suspension control over the original equipment bushings. It extends component life and improves overall vehicle handling as well as greatly reduces wear on suspension components.

### **3 YEAR PARTS & LABOR WARRANTY**

⇒ **LOWER MAINTENANCE COSTS**

⇒ **INCREASED SERVICE LIFE 3 TO 5 TIMES**

⇒ **IMPROVES RIDE QUALITY; QUIETER RIDE**

⇒ **INCREASED CONTROL OVER SUSPENSION MOVEMENT TO MAINTAIN ALIGNMENT; IMPROVES HANDLING, & EXTENDS TIRE LIFE.**

***Elimination of Shear Stresses***

***Superior Fatigue Performance***

***We can also take your old torque rod and rebuild it to receive our  
“E” Life Series***

***URO<sup>®</sup> Systems remanufactured torque rods feature our  
torsional and conical stress free “E” Life Series Rotational Bushings.***

**Upgrade** your suspension for a  
*Quieter, Softer Ride*  
*and completely Maintenance Free*
