

Introducing

The only Shackle System that's designed and proven to meet the high performance standards of today's vehicles.

The **URO**® Suspension Systems provide the following Benefits:

- ◇ *Increased Control over suspension movement to maintain alignment, improve handling, and extend tire life.*
- ◇ *Better vibration and noise control to improve ride quality and handling, the result of quality materials, design, and manufacturing.*
- ◇ *Lowers overall maintenance costs. Increases service life 3 to 5 times.*
- ◇ *Easy installation, requiring no reaming, fitting or lubrication.*

The *URO*[®] Shackle System has a freely rotating spring pin design and a specially formulated material that is self-lubricating and abrasion resistant. The *URO*[®] Shackle provides superior dampening and suspension control over the original equipment bushings. It extends component life and improves overall vehicle handling as well as greatly reduces
